## Support Group for parents of neurodivergent children (All Ages)

If you care for a neurodivergent child, you know the journey can be both rewarding and challenging. This group offers a warm, understanding space to share experiences, exchange ideas, and connect with others who truly understand.

Each session provides practical tips, emotional support, and information on services that can make a real difference for your family. Join us in person or online and focus on what matters most: caring for your child and yourself.

Together, we build resilience, promote well-being, and help families access the right support at the right time.
